The whole curriculum should enable learners to:

- Acquire knowledge, skills, understanding and practical abilities with the motivation to use them
- Develop qualities of mind, body, feeling and imagination
- Extend the effective use of language
- Develop the effective use of number
- Appreciate human achievement in all areas of activity including art, music, science, literature, mathematics and technology
- Acquire an understanding of the social, economic and political nature of society
- Help develop the full potential in individuals for their lives at home, at work, at leisure, in the community and as active empowered participants in society

- Develop British Values within all our students

With the help of the whole school community, Serenity School has developed a curriculum which we feel is relevant and exciting and addresses the aims above. It is a knowledge and skills-based curriculum which aims to draw curriculum links in a meaningful way and takes into account the new national curriculum introduced in September 2014 as well as the final report of the Rochford Review.

6. Planning

Curriculum planning at Serenity School is an ongoing, reflective process that involves all members of the teaching staff. Planning is structured into three levels:

- **Long-Term Plans:** These outline the broad topics and themes that will be covered throughout the year, ensuring a cohesive and comprehensive curriculum.
- **Medium-Term Plans:** These provide more detailed outlines for each term, identifying specific learning objectives, teaching strategies, and assessment methods.
- **Short-Term Plans:** These are daily or weekly lesson plans that include specific activities, resources, and differentiation strategies to meet the needs of all students.

All planning is informed by regular assessment of student progress and is adapted to address the evolving needs of our students.

7. Learning Environment

The learning environment at Serenity School is designed to be inclusive, supportive, and conducive to learning:

- **Classroom Setup:** Classrooms are arranged to support a variety of teaching methods, including group work, individual learning, and hands-on activities. Resources are accessible to all students, and displays reflect student work, key concepts, and positive reinforcement of the core principles.
 - **Safety and Well-being:** Classrooms are safe, clean, and welcoming. Students are encouraged to take responsibility for their learning spaces, reflecting our principle of independence.
 - **Visual and Sensory Support:** We use a range of visual aids, sensory tools, and adaptive technologies to support the diverse needs of our students, ensuring that all learners can engage meaningfully with the curriculum.
-

8. Differentiation and Adaptive Teaching

At Serenity School, differentiation is at the heart of our teaching practices. We adapt our teaching to meet the diverse needs of all students, ensuring that every learner can achieve success:

- **Individual Learning Plans (ILPs):** Each student has a personalised learning plan that outlines their specific goals, strategies, and support needs. These plans are regularly reviewed and updated.
 - **Differentiated Instruction:** Lessons are differentiated by task, outcome, and support to ensure that all students can access the curriculum. This includes using varied teaching strategies, such as scaffolding, modelling, and peer support.
 - **Specialist Support:** We work closely with a multi-agency team, including therapists, counsellors, and specialist teachers, to provide additional support for students with specific needs.
-

- **Formative Assessment:** Ongoing assessment is used to provide feedback during the learning process, helping students understand their strengths and areas for improvement.

 - **Personalised Targets:** Students are involved in setting their own learning targets, fostering a sense of ownership and independence in their learning.
 - **Reporting:** Regular reports are shared with parents and carers, detailing student progress, areas for development, and next steps.
